FOR EXTERNAL USERS INFORMATION ONLY: Results that may be reported by telephone

The following limits, based on guidance from the Royal College of Pathologists¹, identify test results that may be reported by telephone. These values are a **guideline** only; decisions to telephone results are made on a **case-by-case basis** by qualified members of staff.

- Clinically urgent results will be telephoned out of hours (Mon-Fri 17:30-09:00, Sat & Sun).
 - Other results will be telephoned the next working day (Mon-Fri 09:00-17:30).
 - Results consistently outside these limits may not be phoned unless deemed clinically relevant.
